Adobe® Creative Suite® 6 K–12 School Site License

Unleash students' creativity and prepare them for career success with new Creative Suite 6 software and teaching resources

Affordable site licenses are available for the new industry-standard Adobe Creative Suite 6 software. With CS6 software and supporting resources, K–12 educators can provide rich learning experiences and build their students' communication skills using digital storytelling, journalism, gaming, and more. They also can help teach students how to design state-of-the-art digital content for virtually any platform or device using HTML5 and the latest standards for print, web, video, and mobile devices.

The Adobe K-12 School Site Licenses are ideally suited for meeting specific teaching needs throughout a school. Compatible with both Mac OS and Windows® operating systems,* CS6 editions empower students to express ideas faster—across media—with the same design and production tools used by creative professionals worldwide. Teachers can introduce tablets like the iPad into the creative workflow, mirroring an important practice among creative professionals.

K-12 School Site Licenses are available for:

- **Adobe Creative Suite 6 Master Collection**, which includes all the components of the other editions in one value-packed offering
- **Adobe Creative Suite 6 Design & Web Premium** for designing and developing print, web, and mobile content
- **Adobe Creative Suite 6 Design Standard** for graphic design and print production
- **Adobe Creative Suite 6 Production Premium** for filmmaking, broadcasting, and video post-production

Benefits of Adobe K–12 School Site Licenses

Affordable solutions—Buy the latest cross-platform creative tools at prices to match your school and district budgets. Adobe K–12 School Site Licenses help ensure that schools can easily and affordably adopt these tools for their career and technical programs, while allowing them to be used in the administrative office and in other curricular subjects as well.

Essential, industry-standard tools—Creative Suite 6 K–12 School Site Licenses put the same tools that top professionals use into classrooms at the best possible price, giving students the skills to compete and succeed in postsecondary education as well as the global workforce.

Free curriculum sets—Adobe provides project-based curriculum guides developed specifically for teaching valuable career skills in graphic design and print production, web and mobile design and development, and video design and production using Creative Suite. The projects collectively provide enough content for a full-year course in each discipline and have the International Society for Technology in Education (ISTE) National Educational Technology Standards (NETS) Seal of Alignment.

Adobe certification programs—Educators can add credentials and students can open up new opportunities by becoming certified for entry-level Creative Suite skills as an Adobe Certified Associate (ACA) and for professional-level Creative Suite skills as an Adobe Certified Expert (ACE).

* Adobe Photoshop® Extended 3D features and some GPU-enabled features are not supported on Microsoft® Windows® XP.
